

Project Name: _____ Date: _____
 Location: _____
 Engineer: _____
 Contractor: _____ Rep: _____

1 – GENERAL SPECIFICATIONS

Product Features:

- ✓ Certified to ANSI Z21.13 / CSA 4.9 Gas-fired Boiler Standard
- ✓ ASME "H" stamped boiler, designed and constructed in compliance with the ASME Boiler and Pressure Vessel Code Section IV
- ✓ Maximum operating pressure 50 psi [344.7 kPa]
- ✓ SA-268 S43940 Stainless Steel Heat Exchanger
- ✓ Modulating burner, up to 8:1 turndown ratio
- ✓ Direct Spark Ignition
- ✓ Instantaneous domestic hot water
- ✓ Wall (standard) or floor mounting (w/ opt. kit, NTI part # 84630)
- ✓ Zero clearance to combustibles
- ✓ 151-199 MBH [151,000-199,000 BTU]
- ✓ Field conversion from Natural Gas (factory) to Propane
- ✓ Optional Sidewall vent kits
- ✓ 120VAC outlet for condensate pump
- ✓ On/Off switch

Factory Supplied Items

- ✓ 10K thermistor outdoor sensor
- ✓ 30PSI [206.8 kPa] ASME Relief Valve
- ✓ 60PSI [413.7 kPa] Pressure Gauge
- ✓ Condensate Trap
- ✓ Integrated DHW heat exchanger
- ✓ Integrated DHW flow sensor
- ✓ Integrated boiler circulator
- ✓ Integrated diverter valve
- ✓ Low-Loss header w/ 1" sweat connections
- ✓ Water Pressure Sensor

Control Features

- ✓ Integral microprocessor safety control
- ✓ Domestic Hot Water Priority timer
- ✓ Domestic Hot Water pre-heat option
- ✓ Outdoor Reset
- ✓ Warm weather shut down
- ✓ Freeze protection
- ✓ Cascade up to 16 Tx series boilers
- ✓ Outdoor reset temperature boost
- ✓ Service reminder
- ✓ Adjustable pump post purge
- ✓ Run time accumulation
- ✓ Night setback option
- ✓ Lockout and error history

Model Specifications
