

NTI Boilers Inc. is part of the Ariston Group, a global leader in renewable and high-efficiency solutions for water and space heating, components, and burners, and it demonstrates its commitment to sustainability through the development of products such as heat pumps, water heater heat pump, hybrid solutions and solar thermal systems. Ariston Group has 7,743 employees, representative offices in 42 countries, 23 production sites and 25 research and development centers in 4 continents. In 2021, the Group reported revenue of 2 billion euros and sales of 7.5 million products in about 150 countries around the world.

NTI Boilers Inc. is a manufacturer of residential and commercial heating equipment founded in Saint John, New Brunswick, Canada. With over 50 years in business, NTI has found success across North America, and is continuing to expand.

We are currently recruiting a **Health & Safety Coordinator** to be based out of our Saint John, NB location in beautiful Drury Cove.

Responsibilities include but are not limited to:

- Oversee HSE activities to ensure legal compliance
- Perform job exposure analysis to ensure safe work environments according to HSE standards and legislative requirements
- Monitor the effective implementation of appropriate HSE procedures and provide for their updating in line with changes in legislation and Group standards
- Develop, implement, and oversee Health & Safety programs
- Give support in implementing the site health and safety management system according to ISO 45001:2018 standard
- Give support in implementing the site environmental management system according to ISO 14001:2015 standard
- Ensure effective incident management including incidents investigation, root cause identification, prevention plans setting, follow up and reporting.
- Ensure daily, weekly, monthly and annual inspections and perform self-assessment and internal audits to comply with local regulations
- Maintain relevant HSE logs and documentation.
- Support in designing safety training programs for employees, ensure response to all specific requirements and maintain knowledge of all company safety programs, draft all materials for training programs within required timeframe

- Oversee waste management system, waste reduction monitoring, and ensure regulatory agency compliance, labeling, containments, proper disposal, and documentation
- Give support in maintaining good relationship with public institutions (Municipality, Province, Region, Local Healthcare Institution, Regional Environmental Protection Agency, Fire Department), also for inspections, requests for authorizations and/or licenses
- There will be some travel required to our Sussex, NB location

Skills and abilities required:

- Knowledge of provincial Health, Safety & Environmental legislation is a requirement
- Excellent written and communication skills
- Great problem-solving skills
- Innovative thinker
- Team player
- Solutions oriented
- Great relationship building skills
- Passionate about Health & Safety
- Professional Safety designation is preferred and considered an asset

Education and experience: The ideal candidate has a degree in Environmental Engineering (or equivalent) and experience of at least 5 years in the role ideally at manufacturing companies. Knowledge of provincial legislation is a must.

Work Environment: At NTI you'll enjoy a relaxed, yet professional work environment. From our casual dress code, to understanding 'life happens moments' you will fit in immediately as our workplace and employees are very welcoming. We encourage and welcome individuality.

NTI Boilers Inc. is proud to offer a flexible and comfortable work environment along with a competitive compensation and benefits package. If you or someone in your professional network may be a fit please contact me in at knesbitt@ntiboilers.com.
